You don't mention what you're driving. If it has a belt-driven pump, you can use ATF, although purists will tell you to use power steering fluid. Personally, I like to use synthetic ATF. If you have an electric power steering system, you should use only an approved EPS fluid like Pentosin CHF11S, not ATF. Check your owner's manual to be sure.

Here you can find 2007 Chrysler 300C steering fluid capacity. garage.wiki is a community driven DIY car service knowledge base. Decided to service your 2007 Chrysler 300C by yourself? ...
