

In the event of a power failure in the main circuit, the ATS automatically switches to the other circuit to supply power to the load. The ATS automatically switches back to the main circuit after power is restored. In addition, the ATS also provides user configurable power states (voltage or frequency) for the ATS switching condition.

Micro-S L Pro / Micro-S L-RM Pro (1100 - 5000 VA) pure sine wave output Applications: Networkserver Small computersystems Data centers Telecommunicationssystemssystems Industrial applications Safty and protection system for longer autonomy-times pure sine wave without batteries, additional battery cabinet optional Smart backup time estimation

AdPoS is one of the leading suppliers of uninterruptible power supply technology (UPS) for complex industrial applications as well as PC-based systems in Germany. For 25 years, we have been ensuring the data security of our customers--without compromise! In the 21st century, few things are more important than digital data.

HiUp Modulare Online-UPS (10 - 300 kVA) The rack modular, scalable, hot-swappable, online double conversion UPS ranging from 10 to 90 kVA, with its flexible configuration of 3/3, 3/1 and 1/1, compact structure, is the ideal choice for small and medium data center.

Our Services Our UPS are high-quality products with an outstanding service life. Our comprehensive service package ensures that your problem will be solved quickly. Our service includes: Extended warranty We guarantee even safer operation of your UPS. Bring-in and Pre-swap service for small UPS Choose the most convenient solution

Specialties: Das Familienunternehmen AdPoS Advanced Power Systems mit Sitz in Forchheim ist seit über 35 Jahren Ihr Partner für alle Belange rund um die unterbrechungsfreie Stromversorgung.
