The first step to purchasing a solar panel kit is deciding whether you need a small or large system to power your home, cabin, camper, or other off-grid places. Generally, small loads (like small appliances) can be effectively run off of 100-600W systems. Larger loads (like entire households) will need a minimum of 1500W.

This solar panel kit supports 3 types of batteries: lithium batteries, lead-acid batteries, and gel batteries. It's a

## Amazon solar kits

durable solar panel for harsh outdoor conditions and can withstand high winds (2400Pa) and heavy snow loads (5400Pa). It also comes with an impressive 5-year warranty should anything happen to your solar panel kit.
