

American solar energy society logo

Each year, ASES honors individuals making significant contributions to the field of solar and renewable energy, as well as to the ASES annual Awards Program, which recognizes renewable energy scientists, professionals, students, and volunteers for outstanding contributions at all stages of their careers.

ASES is the US Section of the International Solar Energy Society. Read our privacy policy. The ASES office, located in Boulder, Colorado, is on the traditional and contemporary homelands of the Arapaho, Cheyenne, and Ute, and other Native peoples, who have been scientists and stewards in relationship with this land for many generations.

The wide-ranging Inflation Reduction Act (IRA), signed into law in 2022, was a landmark achievement in advancing the country's clean energy agenda. 7 The legislation has provided substantial incentives for clean energy components to be manufactured domestically, bolstered project development incentives, and allocated funds to support growth ...

Founded in 1954, the American Solar Energy Society (ASES) is now supported by more than 10,000 members across the nation who work together to help create a sustainable energy economy. Combined with ASES' regional chapters in 36 states and as the U.S. section of the International Solar Energy Society we're part of a powerful, collaborative ...

We are a community of farmers, solar developers, and innovators who are shaping the future of solar energy and farming. The American Solar Grazing Association (ASGA) is the leading voice of the solar grazing industry, with over 800 members across 45 states representing a diverse group of farmers and solar developers.

The American Solar Energy Society (ASES) is a non-profit 501(c)(3) organization advocating for renewable energy in the United States. Founded in 1954, ASES' goal is to speed the transition toward a sustainable energy economy and 100% renewable energy. The non-profit advocates for sustainable living and renewable energy issues in education, research, and policy. Based in Boulder, Colorado, ASES is the American affiliate of the International Solar Energy Society

Dr. Donald Aitken (1936 - 2022) twice served as President of the American Solar Energy Society and was Vice President of the International Solar Energy Society. Dr. Aitken received many awards for his lifetime service in solar energy and for his building designs that emphasized the use of natural daylighting and passive solar.
