

Ancient sumer solar system

yes, but we cannot use that scientific definition as though the Sumerians did. They had no modern astronomical knowledge like that -- and we know that is the case since their knowledge of astronomy is quite inadequate in many respects (like thinking the stars and planets were deities, knowing no planet beyond Saturn, etc.).

the ancient black sumerians were referred to as "black headed" and not as "black haired".. lets not try changing the direct words of the sumerians as to how they identified themselves as a people, this should not even be a discussion since the facts has been long verified in regards to the racial identity of the ancient black sumerians..
