Let's find out! Arlo has two different versions of the solar panel-- here we're just covering the Arlo solar panel with the magnetic connections, which is currently compatible with the Ultra Pro 4 and the Ultra 2 cameras. Changing batteries turned out to be a bigger hassle for me than I predicted, so I was excited about testing this solar panel.

I'm happy to say that after testing it, the Arlo Solar Panel took on enough sun, even on this shady side of the house, to keep the camera topped off. In fact, there's enough residual light in the area that it is actually still providing some power to the camera even though it is in the shade, which I was really impressed to see.
