The Flashfish 330W Portable Power Station is a simple-looking device that's friendly to your wallet. Its unassuming construction features eight ports, including 2 AC, 2 DC, and a 45W USB-C option. Though not the most robust in terms of inputs and outputs, when you spot the modest price tag, the appeal of the Flashfish power station is more apparent.

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, EcoFlow, Anker, Goal Zero, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. What to Know Before Purchasing a Portable Power Station

Portability: The term "portable" is stretching it sometimes. Batteries are heavy. The larger-capacity power stations are typically on wheels and have telescopic handles, and they are still tough to cart around. If you're looking for something you can actually carry on foot for a distance, you may need to temper your expectations on capacity.

Review: This portable battery station can power your home for 2 weeks. This is a really big setup, so while it's not for everyone, it without a doubt represents the ultimate in portable power storage.

On-the-go power meets wireless charging. The Wireless Charger Portable Battery 25W quickly and conveniently charges your smartphone or Galaxy Watch Active2, so you don't have to worry even when there's no outlet in sight. While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.

Battery portable power

Portable power stations can't replace a gasoline-powered portable generator, but they can be safely used indoors. CR gives advice for when you might need one of these battery generators. Ad-free.
