

Be quiet system power l8 600w power supply review

be quiet! System Power 9 CM 600W offers be quiet! reliability and quietness for cost-effective and reliable systems. Rock-solid stability with 2 strong 12V-rails; DC-to-DC technology for tight voltage regulation 4 PCIe connectors for powerful GPUs; Temperature-controlled 120mm fan reduces system noise; Stand-by drain of less than 0.15 watts

The newest additions to Be Quiet's portfolio of products are the fresh L8 units that belong to the Pure Power series. These mostly address the mainstream and mid-end market segments. The new models are six in total, and all of them are equipped with affixed cables to restrict production costs and achieve a lower retail price.

Taking a closer inspection on the 600w Straight Power 10 power supply, be quiet! have gone with a subtle all-black design, with the be quiet! logo embossed into the metal panel as opposed to using a sticker; there is one on the other side though that lists the AC input/DC output specifications of this particular unit.
