Best budget lithium trolling motor battery

VMAX may have a reputation for making some of the best AGM trolling motor batteries, yet the company is not resting on its laurels, producing a new line of batteries utilizing lithium iron phosphate technology. The result is their latest trolling motor lithium-ion battery offering, the LFP27-12100 LiFePO Li-Iron 12V 100AH Deep Cycle Battery.

After speaking with Miller, I upgraded my own system from three 12-volt batteries on my trolling motor to two 36-volt batteries in parallel. I use my boat all day, and when I plug it into my 36-volt Dakota Lithium charger, I am charged usually in less than 2 hours.

Best price for a 12V 100Ah lithium battery: Best for 24V trolling motor with longer running time: Score: 9.5: 9: 9: Check Price. Check Price. Check Price. How Do I Choose A Lithium Battery For A Trolling Motor. 4 things to notice when purchasing a lithium battery for your trolling motor: Type of battery, voltage, amp-hour and size.

Li Time TM vs Redodo Mini: Best Budget Lithium Battery Review. Eric Yu December 22, 2023. When we built our camper van in 2019, lithium batteries were expensive! If you wanted one (100Ah @ 12V), you could expect to spend at least \$800. ... We received a Li Time "TM" (Trolling Motor) lithium battery and a Redodo Mini lithium battery for this ...

Now if we're pairing our trolling motors with our kayaks, a smaller-sized lithium battery for trolling motor (like our 12V 30Ah or 12V 50Ah batteries) will probably do the trick. (And keep in mind, you want the lightest battery weight possible in scenarios like this, so the advantages of lithium batteries are a must.)

For example, a 50Ah lithium battery will give you 40Ah. That's equivalent to an 80-100Ah lead-acid battery. Now, if your motor draws 40 Amps at full speed, those 40Ah will power your motor for 1 hour. When choosing your lithium battery, make sure its maximum continuous output current is higher than your trolling motor's maximum Amp draw.

This is a high quality durable 12V deep cycle battery that will deliver 55 amp hours and has a calcium alloy grid for low maintenance and superior performance, with resistance to shock and vibration. This is the best trolling motor battery Might Max offer, as it is well suited to all conditions, including both high and low temperatures, giving it a longer life.
