The total cost of a 5KW Hybrid Solar Power System in Kenya falls within the range of Ksh. 375,000 to Ksh. 655,000, considering both the inverter and battery price range. Investing in a 5KW system ensures sufficient power generation and storage capacity to meet the energy needs of a typical residential household.

However, the price of these solar batteries in Kenya is higher than that of lead acid batteries. But, lithium ion batteries have a longer life span, are maintenance free, and have a bigger discharge depth than lead acid batteries. You harvest more energy from lithium ion batteries than from lead acid batteries.
