

Better energy project solar reviews

Project Solar is a professional solar installation company that also offers customers a do-it-yourself option.. Founded in 2016, the company is dedicated to reducing the cost of going solar by reducing overhead, streamlining its lean infrastructure, and doing away with the door-to-door sales force so many other solar companies have come to rely upon.

Discussion of solar photovoltaic systems, modules, the solar energy business, solar power production, utility-scale, commercial rooftop, residential, off-grid systems and more. Solar photovoltaic technology is one of the great developments of the modern age. Improvements to design and cost reductions continue to take place.

Project Better Energy proudly houses a consortium of renewable energy entities, including Project Solar UK, Project EV and Project CÜRV. This strategic expansion has propelled Project Better Energy into a prominent position as one of the UK"s leading solar panel retailers, boasting the installation of nearly 40,000 solar energy systems.

Before Better Earth installed my solar panels my light bill was running about \$300 in the summer. After months of anticipation finally we go live. My very first light bill with solar was \$600 only to be followed by another \$600. Every since we went solar it has been a real nightmare. I had experts come out only to tell me i got the Shaft.

In 2012, Simon Peat took over as director and, together with Andrew Walton-Green and Colin Wood, jointly steered the company from strength to strength. Project Solar has been controlled by its parent company, Project Better Energy, since 2018. The Project Solar UK head office is based in Burton-on-Trent, where the company employs around 150 people.

Hi everyone, last year I asked r/solar if Project Solar was legit, and we got our final utility approval a few weeks ago, so I'd like to follow through on my promise to share my experience for anyone who is curious.. tl;dr - They are legit, price and install was fantastic, but it took longer than I had hoped for. I started shopping my 11kW system in Florida by soliciting quotes from Project ...
