PATNA, July 28 -- Bihar is now awaiting the union coal ministry's nod to establish a 2400-MW thermal power plant at Pirpainti in Bhagalpur district, for which the union budget tabled on July 23 approved Rs 21,400 crore, top officials of the state energy department said on Saturday. The Centre's nod has come amid several flip-flops on the project by the Bihar government.

With its large population and rapidly growing economy, Bihar needs access to clean, cheap and reliable sources of energy. Giving the due cognizance to the issue at hand, state government ...

Delhi, 12 February 2021 - India's Bihar State will pursue a climate resilient and low-carbon development pathway with the support of the UN Environment Programme (UNEP), the two ...

Renewable energy comes from unlimited, naturally replenished resources, such as the sun, tides, and wind. Renewable energy can be used for electricity generation, space and water heating and cooling, and transportation. Non-renewable energy, in contrast, comes from finite sources, such as coal, natural gas, and oil.
