In other words, we help you stay in control. Camfil - Intelligent air solutions for maximum predictability and minimum complexity. CLEAN AIR SOLUTIONS FOR TURBOMACHINERY Camfil Power Systems specializes in air inlet and acoustical systems for turbomachinery, including gas turbines, generators, industrial air compressors and diesel engines.

Established in the year 1979 as "Anfilco Limited", "Camfil Farr Air Filtration India Limited" is engaged in manufacturing and supplying a wide range of air filtration products for industrial application like Power Systems (GT & Compressors), Railroad applications, HVAC & Paintline and APC Products.

Why Camfil Camfil Canada is committed to helping create healthier indoor environments by providing high-quality air filtration solutions. We will continue to innovate and lead the way in the development of new air filtration products and technologies that provide superior indoor air quality for public, commercial, and industrial buildings.

BOOST TO REDUCE - A CO 2 REDUCTION AWARENESS CAMPAIGN. Camfil is running an educational campaign to encourage customers to cut their total CO 2 emissions. Since fouled gas turbines become less efficient, they need to burn more fuel to generate the same power or they need to find another way to make up the lost power.

As a leading manufacturer of premium clean air solutions, Camfil provide commercial and industrial systems for air filtration and air pollution control that improve worker and equipment productivity, minimize energy use, and benefit human health and the environment.
