

Chassis product manager motiv power systems detroit mi

Motiv Power Systems Profile and History. Motiv Power Systems was founded in 2009 and is headquartered in Foster city, California. Motiv Power offers EPIC which is an electric powered intelligent chassis that is all an electric equivalent to the internal combustion powered chassis.

(Photo: Motiv) Good day, Buyers of the Ford F-59 chassis are now able to get that chassis fully electrified during the assembly process after a new collaboration between Motiv Power Systems and Detroit Custom Chassis (DCC). DCC will install Motiv's all-electric EPIC chassis on F-59 platforms assembled at the Detroit Chassis Plant (DCP).

Motiv Power Systems has secured \$20 million from Crescent Cove Advisors, as the electric vehicle chassis maker builds on the success of its fifth-generation electrification technology to scale operations and manufacturing. "We have record orders on the books and now have to ramp up production to fill those orders," CEO Matt O'Leary told FreightWaves.
