

Companies that do flat roof solar system installation in brooklyn

The tl/dr version - in NYC, with a flat roof of about 1000 sq ft, looking to get a solar installation to offset my electricity bills (which are pretty high, over \$1k/mo due to running quite a bit of computer equipment).

Solar installations in NYC are heavily incentivized, reducing your upfront costs by over 75%. The upfront cost for going solar in NYC typically starts around \$30,000. Once you've claimed your incentives, net project cost is far less, and lifetime savings amount to over \$50,000. You can get started now for \$0 down.

The damages we see most often with our customers' roofs are minimal and can be repaired at any point, even after the installation. In this way, flat roofs have an advantage over pitched roofs when it comes to solar. Flat roofs allow for easy maintenance after a solar installation, while solar panel removal is required for repairs on pitched ...

Install or Replace a Flat, Foam or Single Ply Roof; Install or Replace a Jetted Tub; ... Brooklyn Solar Energy Companies are rated 4.8 out of 5 based on 65 reviews ...

Based on the size of your solar system, it'll take 1-2 days to complete (weather permitting). We hoist the panels and related equipment onto the roof using a pulley that's set up at the front of your building. The electrical components of your system are carried to their set up location. Solar System Installation Begins

With the help of our sister company, Brooklyn Solar Canopy, we created a solar canopy system that was designed with NYC's flat roofs in mind. It elevates the solar panels above roof obstructions and designated fire paths, allowing for efficient use of limited roof space and opening up the opportunity of solar for more homeowners around the city.

Our solar installation pricing is largely determined by system size. The size of your system depends on your home's energy needs and what's structurally feasible for your roof. Larger systems with more solar panels, like our Brooklyn Solar Canopy, will carry a higher price tag (but also yield greater savings and energy production).

Specialties: Brooklyn SolarWorks is a solar design and installation firm based in Gowanus, Brooklyn, serving New York City. We've completed over 2,000 residential, multifamily, and commercial solar projects within the five boroughs. Established in 2015. Founded in 2015 by a team with over 12 years of experience in the solar industry.

Solar panels on a flat roof are still quite exposed to wind, so they need to be weighed down with a ballast mount. A ballast mount is usually an angled, plastic container filled with blocks, with the solar panel securely

Companies that do flat roof solar system installation in brooklyn

placed on top of it.
