Companies that install commercial solar panels

Commercial solar is the use of solar energy to fulfil the energy needs of a business. Compared to residential systems, commercial solar panels are typically larger to absorb more light, and generate more energy to meet the higher demand of businesses. When it comes down to solar panels for businesses, in most cases the larger the panel the better.

How much do commercial solar panels cost? According to the MCS, the average cost of a commercial solar panel installation so far in 2024 was £9790, or £1278 per kW. Obviously this covers a variety of installations so is only a rough guide. Small to medium-sized businesses can expect to spend between £16,000 and £70,000 for commercial panels.
