Attaches to most household drills with RPM ranges of 1200-3500. ... Meguiar's DA Power System brings the same power to your garage by turning your drill into a professional grade Dual Action Polisher. By letting your drill do the work, you can now wax your car in 30 minutes with better results than hand or orbital applications.

What is a Cordless Drill? A cordless drill is a power tool that is designed to be used without the need for a power cord. It works by using rechargeable batteries to power the drill, making it much more mobile than a traditional corded drill. Cordless drills come in all shapes and sizes, and are used for a wide range of applications, from ...

DA Power System creates eccentric movements; without damaging the surface, Especially handy even on angled sheet metal parts, Can be used with any standard drill at a speed of 1200 - 3500 RPM (no cordless drill!), Diameter: 102 mm

Unlike corded drills, a cordless drill does not require a power outlet to function. Instead, it uses a rechargeable battery pack, making it convenient and portable. With advances in technology, cordless drills now have longer battery life and higher power output, making them suitable for even the toughest jobs.
