*DIY Lithium Batteries: How to Build Your Own Battery Packs* eBook : Toll, Micah: Amazon .uk: Kindle Store ... Micah toll the author of this book offers that service at a much better price than the big corporations. I am not sure if he ships batteries to the UK but worth a look. I am a retired electrical service engineer I would recommend this ...

2 quotes from Micah Toll: "Lastly, I'll need a charger. The same vendor on AliExpress that I got my BMS from, Greentime, also sells chargers. I'll select a 42.2 V charger, as that's the appropriate voltage for my 10s li-ion battery. An aluminum shell charger rated for 2 A charging will do nicely. That should give me about 5-6 hours for a full charge.

Description. You want to build your own lithium battery packs, but you need the right knowledge to do it safely. Micah Toll's Amazon #1 Bestselling book, *DIY Lithium Batteries: How To Build Your Own Battery Packs* has everything you ...

Lithium batteries have existed in various forms since the 1970's, and innovations in the 80's and 90's have led to the familiar lithium battery cells that we know today. Current research on lithium batteries has produced battery cells capable of extreme performance, for example, 100% recharging in just a few seconds.
