

Ecoflow whole house backup

One of the most significant advantages of the EcoFlow whole house generator is how many charging options it gives you. Using solar panels, you can generate up to 1600W of clean, renewable solar power simultaneously. You can keep your system fully charged between blackouts by quickly charging it with household (AC) electricity.

An even more powerful option is the EcoFlow DELTA Pro Ultra, which can provide a capacity from 6kWh to an astounding 90kWh and continuous AC output from 7.2-21.6kW, allowing you to customize your power solution based on your needs. The EcoFlow DELTA Pro Ultra offers plenty of flexibility. You can add up to 42 x 400W Rigid Solar Panels to achieve ...

For instance, EcoFlow provides five-year warranties to their portable power stations, including the Delta PRO models in their Whole Home Backup Power Solution. Whole home battery backup systems are an excellent way to prevent your family from being affected by power outages.

The EcoFlow DELTA Pro Portable Power Station is a higher capacity option than the EcoFlow DELTA 2, starting at 3.6 kWh and expandable to 25 kWh. The EcoFlow DELTA Pro can run multiple high-wattage appliances and expand to a whole house backup power solution. It provides the plug-and-play options of the EcoFlow DELTA 2 but with a much higher ...
