Ecowas renewable energy policy

In 2013, the ECOWAS Authority of Heads of State and Governments adopted the ECOWAS Renewable Energy Policy (EREP). Its aim is to increase the renewable energy share in the regional electricity mix to reach 10% of the peak load in 2020 and 19% in 2030, excluding large hydro. Including medium and large hydro, the installed capacity would reach 35 ...

The initiative aims to achieve three interlinked targets by 2030: universal access to modern, affordable and reliable energy services; doubling the improvement in energy efficiency; ...

The achievement of the targets of the ECOWAS Renewable Energy Policy (EREP) and the ECOWAS Energy Efficiency Policy (EEEP). The objectives of the UN Sustainable Energy for All Initiative (SE4ALL). The initiative aims to achieve three interlinked targets by 2030: universal access to modern, affordable and reliable energy services; doubling the ...

Healey, V, Maduekwe, M, Morris, E & Greene, J 2019, "Gender Equity and Mainstreaming in Renewable Energy Policies - Empowering Women in the Energy Value Chain in the Economic Community of West African States (ECOWAS)", Current Sustainable/Renewable Energy Reports, vol. 6, no. 1, pp. 13-21.

The centre has established a regional policy framework, which includes specific targets for the years 2020 and 2030. In 2020, ECREEE is celebrating its 10 years anniversary. The year marks also the end of the first phase of the ECOWAS Policy on Renewable Energy (EREP) and the ECOWAS Policy on Energy Efficiency (EEEP).

Comparatively, this is at variance with ECOWAS Renewable Energy Policy (EREP) [14]. Therefore, future versions should adopt such targets from EREP as objectives. The ECOWAS targets for solar water heater technologies for sanitary hot water and preheating of industrial process water are summarized in Fig. 5. Nigeria's targets of 40,000, 60,000 ...

adopted at ECOWAS level, namely: The ECOWAS Renewable Energy Policy (PERC - 2013), the ECOWAS Energy E~iciency Policy (PEEC - 2013), the ECOWAS Bioenergy Policy (2017), the ECOWAS Policy for Gender Mainstreaming in Energy Access (2017) as well as the ECOWAS Green Hydrogen Policy and Strategy Framework (2023).

At a regional level: during 2011, elaboration of a Regional Policy and Guidelines to promote Renewable Energy and Energy Efficiency in ECOWAS countries. At a national level: assist the different government to elaborate and approve the regulatory framework to promote RE. Enabling factors for RE in West Africa

adopted by the Authority of ECOWAS Heads of State and Government in July 2013 (following the October 2012 Regional Action Plan) introduced the development of renewable energy as an ECOWAS policy target. 1

The Renewable Energy Policy Network for the 21st Century (REN21) and the Economic Community of West African States (ECOWAS) Centre for Renewable Energy and Energy Efficiency (ECREEE) have published a report on the renewable energy and energy efficiency market and industry development in West Africa.

Under the ECOWAS Renewable Energy Policy (EREP), ECOWAS member states will strive to increase the share of renewable energy in the electricity mix to 10% by 2020 and to 19% by 2030. As ECOWAS member states will have to introduce new policy and regulatory instruments to achieve these goals, the Principles will guide regulatory agencies in ...

The African Development Bank (AfDB), the ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREE), the Climate Technology Initiative - Private Financing Advisory Network (CTI-PFAN), the United Nations Industrial Development Organization (UNIDO), and the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) are jointly organizing the "ECOWAS ...

Similarly, a UNIDO/ECREE-GEF project has been established to increase renewable energy in the electricity sector of Guinea-Bissau. The project will promote the installation of 2.5 MW renewable energy generation capacity and foster the development of a National Renewable Energy Investment Plan.
