With SciSpace, you do not need a word template for International Journal of Electrical Power & Energy Systems. It automatically formats your research paper to Elsevier formatting guidelines and citation style. You can download a submission ready research paper in pdf, LaTeX and docx formats.

Electric Power Components and Systems is a hybrid open access journal that is part of our Open Select publishing program, giving you the option to publish open access. Publishing open access means that your article will be free to access online immediately on publication, increasing the visibility, readership, and impact of your research.

o Artificial Intelligence in Electrical Engineering o Internet of Things (IoT) in Electrical Systems o Electric Vehicles and Transportation o Robotics and Automation. Authors are requested to submit their manuscripts electronically through our online submission system by the specified deadline. Submission Guidelines:

Objective International Journal of Emerging Electric Power Systems (IJEEPS) publishes significant research and scholarship related to latest and up-and-coming developments in power systems. The mandate of the journal is to assemble high quality papers from the recent research and development efforts in new technologies and techniques for generation, ...

The appropriateness of the proposition is proved in two power systems: The first system is composed of 4 hydraulic power stations and 10 thermal units, while the second system is composed of 16 ...
