Here are four steps Florida can take to keep renewables on the rise: Set an ambitious goal for generating an increasing amount of the state's electricity needs from clean, renewable energy goals. Environment Florida supports House Bill 193, filed by Representative Anna Eskamani (District 42), which would set a 100% renewable energy goal by 2050.

The following solar energy companies scored well using our rating system and operate throughout Florida. Palmetto offers comprehensive customer support and system monitoring to keep your solar system in peak condition. This is especially helpful for Floridians who see changing and sometimes turbulent coastal weather.

The Future of Florida Net Metering. Net metering in Florida almost went by the wayside in 2022 when utility companies organized to lobby for House Bill 741 which would have removed the programs starting in 2024. However, despite passing the legislature, the bill was ultimately vetoed, saving solar owners from additional fees, and allowing net metering ...

Enhanced by federal tax credits, Florida-specific incentives, and local benefits, solar power has never been more accessible to Floridians. Committed to a goal of 100% renewable energy by 2030, the benefits are already tangible.
