

Generac backup power

Solar batteries can be a cost-effective and renewable alternative to a gas generator for backup power. Upfront costs for backup batteries are typically higher than generators, but the lifetime savings can offset the upfront payment. You power solar batteries with the sun and can pull energy from them to avoid costly grid electricity.

More power. More protection. From a brand you trust. Introducing the Guardian 26kW home standby generator, from the #1 manufacturer of backup power products. With more than 60-years of experience in the backup power industry, it's no wonder why 8 out of 10 home standby generators installed are Generac.
