Features 16V charger 17.75 Volt Charge Output 10 amp hour charge rate Microprocessor controlled Multiple LED State of charge indicator Overload Protection Over-Voltage Protection Over-Heat ...

Go Lithium Ultralight Battery Box/MountMount your new GO Lithium Battery with our Aluminum Ultralight Battery Box! The only battery box that will fit your GO Lithium battery perfectly Quick one bolt battery hold down design All Aluminum Construction Ultra Lightweight at only 14oz. Durable Powdercoat Finish Quickly mounts on chassis tube (with ballast brackets) or any flat surface!

The GO Lithium 16V battery is incredibly powerful, recharges quickly, and weighs in at only 8 pounds! Yes, 8 pounds! With the lighter weight, the racer is able to move lead where it will be most effective. This is the ONLY lithium battery on the market based on prismatic technology. Prismatic cells are more durable and are able to store more power in a smaller area.

GO Lithium Racing Battery - 16v Single Battery and Charger Package \$ 1,250.00; GO Lithium Racing Battery - 16v Dual Battery and Charger Package \$ 2,185.00; GO Lithium Racing Battery - 16 Volt 20 Amp Hour Ultralight Battery \$ 995.00; GO Lithium Racing Battery - 16 Volt High Speed Battery Charger \$ 295.00

The kit includes (4) 6AWG battery cables to hook up the 12v and 16v batteries to a 3-position Perko switch to choose 12v or 16v power. A helpful tip if you are in a remote area with hard-to-get power cord connections and are running the built in DC charger, you can select 12V power for the practice day before and charge the 16V during practice.

The kit includes (4) 6AWG battery cables to hook up the 12v and 16v batteries to a 3-position Perko switch to choose 12v or 16v power. A helpful tip if you are in a remote area with hard-to-get power cord connections and are running the built ...
