A recent study found that solar panels are viewed as upgrades, just like a renovated kitchen or a finished basement, and home buyers across the country have been willing to pay a premium of about \$15,000 for a home with an average-sized solar array. Additionally, there is evidence homes with solar panels sell faster than those without.

Solar panels are rated that way because that's how much your typical shingled roof is rated to withstand, although our panels can typically handle much more. We had 39 instances in 2022 where we partnered with different roofers to replace a roof because of hail, but the solar panels were 100% in tact and were able to be re-installed.

In the unlikely event there's an issue with your solar panel system, it's important to know who to call. Multiple warranties come with your solar panel system, including manufacturer warranties for the various equipment and your installer's workmanship warranty.. The workmanship warranty covers all the labor your installer performs.
