Chapter 2: Language, Power, and Privilege Language is a central part of how we interact with one another as humans. Through language, we not only communicate ideas and information, we also express and construct aspects of our identity. That's why we start this book by considering some of the social aspects of language.

power shapes language and communication behaviour (e.g. body lan-guage) and vice versa. As we argue in this section, research relating power to language and communication so far has often considered power in terms of the perceived opportunities it provides. Therefore, we subsequently focus on the moderating role of context, indicating that
