

We invite you to join us for the 40th IEEE Photovoltaic Specialists Conference (PVSC), being held June 8-13, 2014, in Denver, Colorado. Since our first meeting in 1961, the PVSC has established itself as the world's leading technical event for scientists, engineers and decision-makers across the full spectrum of PV technologies.

At the 52nd IEEE Photovoltaic Specialists Conference we will be addressing these advances and challenges by offering a diverse technical program divided into eleven areas covering the breadth and depth of PV science, manufacturing, reliability, deployment, policy and sustainability. We will have a slate of exciting keynote, plenary and invited ...

The IEEE Photovoltaic Specialists Conference (also called PVSC [2]) is the longest running technical conference dedicated to photovoltaics, solar cells, and solar power. The first PVSC was in 1961 at the NASA headquarters in Washington DC. The number of conference areas have expanded and now include PV reliability and solar resource. The conference has also had ...

2010 35th IEEE Photovoltaic Specialists Conference; Because of the sensitivity of some photovoltaic devices to moisture-induced corrosion, they are packaged using impermeable front- and back-sheets along with an edge seal to prevent moisture ingress. Evaluation of edge seal materials can be difficult because of the low permeation rates involved ...

The PVSC-40 will be held June 8-13, 2014, at the Colorado Convention Center in mile-high Denver, Colorado. Denver is a beautiful city and one of strong solar importance, with many PV ...

Abstract: Most technical challenges that have emerged for safe photovoltaic (PV) systems are addressed with new installation requirements in the 2014 National Electrical Code ® (NEC ®). The recent cycle for updates to the NEC has been completed. Collaborative efforts among industry experts and focused groups including the US DOE industry forum, Solar Energy Industry ...

MEETING. Access Virtual Meeting. Plenary Speakers. Abstract Submission. Registration. Important Dates. Throughout the years, we at PVSC have worked hard to build an organization that honors the people, spirit, and values of our community. We feel a moral ...

Dr. King is recipient of the 2010 William R. Cherry Award given by the IEEE for "outstanding contributions to photovoltaic science and technology," an IEEE Fellow, a co-founding editor of the IEEE Journal of Photovoltaics, and was general chair of the 40th IEEE Photovoltaic Specialists Conference (PVSC) in Denver, CO in 2014.

This focus area of the 40th IEEE Photovoltaic Specialists Conference (PVSC-40) covers the latest scientific and technical progress for a broad range of solar cells that fall in the category ...

The proper modeling of Photovoltaic(PV) systems is critical for their financing, design, and operation. PV_LIB provides a flexible toolbox to perform advanced data analysis and research into the performance modeling and operations of PV assets, and this paper presents the extension of the PV_LIB toolbox into the python programming language. PV_LIB provides a ...

Analysis of the component costs with particular emphasis on the microscale PV cell costs and the associated tradeoffs between cost and performance for the hybrid CPV design is concluded. Microsystems Enabled Photovoltaics (MEPV) is a relatively new field that uses microsystems tools and manufacturing techniques familiar to the semiconductor industry to ...

He has five issued patents and is an active peer-reviewer for several journal publications and the IEEE Photovoltaic Specialists Conference. Oliver received the Solar World Junior Einstein Award in 2006 and is a co-awardee of the R& D 100 award of 2013. Congratulations, Dr. Schultz-Wittmann! ... 2014 (nominations are closed) About the Award.

This focus area of the 40th IEEE Photovoltaic Specialists Conference (PVSC-40) covers the latest scientific and technical progress for a broad range of solar cells that fall in the category Organic Photovoltaics (OPV). OPV has continued to show tremendous progress in the past years. The creation of its own focus area at the PVSC means that it ...

The 52nd IEEE Photovoltaic Specialists Conference (PVSC-52) on June 9-14, 2024 in Seattle, Washington marks a milestone in the conference's longstanding tradition of covering the full spectrum of PV knowledge and innovation, from the basic science and engineering of materials, devices, and systems, to the examination of policy and markets and critical issues ...
