

F. Mazouz, S. Belkacem, G. Boukhalfa and I. Colak, "Backstepping Approach Based on Direct Power Control of a DFIG in WECS", 2021 10th International Conference on Renewable Energy Research and Application (ICRERA), 2021, pp. 198-202.

A great deal of attention must be paid to the development of New Renewable Energy (NRE), because electricity demand is growing rapidly. ... This research shows that PVDF converts waves' mechanical energy into electrical energy. ... It is estimated that on average 2.29 mW of power is generated. International Journal of Renewable Energy Research ...

The International Journal of Renewable Energy Research (IJRER) is not a for profit organization. IJRER is a quarterly published, open source journal and operates an online submission with the peer review system allowing authors to submit articles online and track their progress via its web interface.

A. AlKassem and M. AlKabi, "A TOPSIS Model to Support Smart Appliance Decision Energy Management in Smart Grid," 2022 11th International Conference on Renewable Energy Research and Application (ICRERA), Istanbul, Turkey, pp. 534-539, 2022.

International Journal of Renewable Energy Research-IJRER User. Username: Password: Remember me: Notifications. View; Subscribe; ... 4th International Conference on Renewable Energy Research and Applications, Palermo, pp.557-561, November 2015. ... International Journal of Renewable Energy Research, Vol. 8, pp. 552-560, 2018 ...

IJRER - International Journal of Renewable Energy Research is quarterly published, open source journal and operates an online submission with the peer review system in sustainable energy ...

International Journal of Energy Research. Volume 2023, Issue 1 1530969. Research Article. Open Access. China's Potential for Trade in Renewable Energy Products in RCEP Countries: A Gravity Model Analysis. ... and the analysis of renewable energy products in international trade has become a hot topic. The current research in this field focuses ...

1. Introduction. Over the last few decades, global concerns about the depletion of conventional fossil fuels and climate change have led to the development of sustainable energy supply systems []. For the transition to a sustainable energy supply system, many countries have paid considerable attention to renewable energy sources (RESs) as a promising alternative by ...

N. Genc, H. Dilovan, "Dynamic Behavior Analysis of ANFIS Based MPPT Controller for Standalone Photovoltaic Systems"; International Journal of Renewable Energy Research (IJRER), 10(1), pp. 101-108, 2020. E. Irmak, and N. Guler.

International Journal of Renewable Energy Resources. Current Archives Announcements ... Photochemical Devices, Bio and hydrogen energy. IJRER accepts original research papers or any other original contribution in the form of reviews and report on new concepts. It promotes innovation, papers of a tutorial nature and a general exchange of news ...

IJRER - International Journal of Renewable Energy Research is quarterly published, open source journal and operates an online submission with the peer review system in sustainable energy future. International Journal of Renewable Energy Research-IJRER

We definitely assign minimum three reviewers for each manuscript submitted. The last four years" acceptance rates of IJRER are 26% in 2017, 22% in 2018, 25% in 2019, and 28% in 2020. All ...

A. Harrouz, M. Abbes, I. Colak and K. Kayisli, "Smart grid and renewable energy in Algeria," 2017 IEEE 6th International Conference on Renewable Energy Research and Applications (ICRERA), San Diego, CA, 2017, pp. 1166-1171.

Not every article in a journal is considered primary research and therefore "citable", this chart shows the ratio of a journal's articles including substantial research (research articles, conference papers and reviews) in three year windows vs. those documents other than research articles, reviews and conference papers.

The International Journal of Renewable Energy Research (IJRER) seeks to promote and disseminate knowledge of the various topics and technologies of renewable (green) energy resources. The journal aims to present to the international community important results of work in the fields of renewable energy research, development, application, or design.

Based on a thorough review of relevant literature, this work identifies, synthesizes, interrelates and explains the main challenges, problems, and solutions found in the integration ...

International Journal of Energy Research is dedicated to providing a multidisciplinary, unique platform for researchers, scientists, engineers, technology developers, planners, and policy makers to present research results and findings in a compelling manner on novel energy systems and applications.

International Journal of Renewable Energy Research-IJRER User. ... "Solution Processed of Solid State HTL of CuSCN Layer at Low Annealing Temperature for Emerging Solar Cell," International Journal of Renewable Energy Research, vol. 11, no. 2, 2021. ... "New nanotechnology structures CNTFET GaAs", 8th International Conference on ...

International Journal of Renewable Energy Research-IJRER User. Username: Password: Remember me:

Notifications. View; Subscribe; Journal Content. Search : ... J. Ma and X. Ma, "Distributed Control of Battery Energy Storage System in a Microgrid," 2019 8th International Conference on Renewable Energy Research and Applications (ICRERA), 2019, pp ...

B. S. Goud, and B. L. Rao, "Power quality improvement in hybrid renewable energy source grid-connected system with grey wolf optimization", International Journal of Renewable Energy Research (IJRER), Vol.10, No.3, pp.1264-1276, 2020.

International Journal of Renewable Energy Research is an academic journal published by Gazi University. The journal publishes majorly in the area(s): Photovoltaic system & Renewable energy. It has an ISSN identifier of 1309-0127. Over the lifetime, 1944 publications have been published receiving 15497 citations. The journal is also known as: IJRER.

K.S.Sambaiah, T.Jayabarathi, "Optimal allocation of renewable distributed generation and capacitor banks in distribution systems using Salp Swarm algorithm", International Journal of Renewable Energy Research, vol. 9, pp. 96-107, 2019.

International Journal of Renewable Energy Research (Online) Resource information. Archival Status. Title proper: International Journal of Renewable Energy Research. Abbreviated key ...

International Journal of Renewable Energy Research: Currently known as "International Journal of Renewable Energy Resources"; OVERVIEW: Discipline(s) / Subdiscipline(s): 1. Sciences - ...

International Journal of Energy Research is dedicated to providing a multidisciplinary, unique platform for researchers, scientists, engineers, technology developers, planners, and policy makers to present research ...

Search tips: Search terms are case-insensitive; Common words are ignored; By default only articles containing all terms in the query are returned (i.e., AND is implied); Combine multiple words with OR to find articles containing either term; e.g., education OR research; Use parentheses to create more complex queries; e.g., archive ((journal OR conference) NOT theses)

IJRER seeks to promote and disseminate knowledge of the various topics and technologies of renewable (green) energy resources. The journal aims to present to the international ...

International Journal of Renewable Energy Research (IJRER) 6, no. 4 (2016): 1318-1327. Nadimi, A., & Adabi, F. "Optimized Planning for Hybrid Micro-grid in Grid-connected Mode," International Journal of Renewable Energy Research (IJRER) 6, no. 2 (2016): 494-503. ... International Journal of Renewable Energy Research (IJRER) 6, no. 3 (2016): 772 ...

INTERNATIONAL JOURNAL of RENEWABLE ENERGY RESEARCH N.Mishra et al. Figure 1. CAD

model of a Savonius Turbine. It has many advantages over other turbines because its construction is simpler and ...

Y. Allahvirdizadeh, M. Mohamadian, and M. HaghiFam, &#226;EURoeStudy of Energy Control Strategies for a Standalone PV/FC/UC Microgrid in a Remote Area&#226;EUR, International Journal of Renewable Energy Research, vol. 7, no. 3, pp. 1495-1508, 2017.

Abstract. One of the critical challenges and issues of today"s societies is disrupting the order of the environment, then getting the environment out of balancing; consequently, the degradation ...

Abstract. Offshore wind is at its infancy in terms of technology and capacities in India. The Ministry of New and Renewable Energy (MNRE) announced medium and long term offshore targets of 5 GW and 30 GW by ...
