

IJRER (ISSN 2289-1846) accepts original research papers or any other original contribution in the form of reviews and report on new concepts. It promotes innovation, papers of a tutorial nature and a general exchange of news, views and new books on the above subjects. ... International Journal of Renewable Energy Resources
Email: ijrer99@gmail.com ...

Materials for Renewable and Sustainable Energy is an open access journal, focusing on research for renewable and sustainable energy technologies.. Topics include renewable energy storage and conversion, energy saving, and more. Indexed in the Web of Science's ESCI, Scopus, SCImago, DOAJ, and EI Compendex among other databases.

The Journal of Renewable and Sustainable Energy (JRSE) is an interdisciplinary, peer-reviewed journal covering discovery, generation, conversion and end-use of renewable and sustainable energy (RSE) relevant to the physical science and engineering communities. Specifically, JRSE focuses on new insights or creative methodologies that addresses the challenges of ...

Scope: The scope of the International Journal of Electrical Power & Energy Systems (JEPE) is focused on electrical power generation, transmission, distribution and utilization, from the viewpoints of individual power system elements and their integration, interaction and technological advancement. The scope covers modelling of power system elements, their design, analysis ...

I have searched and found that currently "International Journal of Renewable Energy Research" is Indexed in Scopus and Web of Science ! Please check Scopus profile of this journal using the ...

The surge in interest surrounding renewable energy stems from concerns regarding pollution and the finite supply of nonrenewable resources. ... International Journal of Energy Research. Volume 2024, Issue 1 8258624. ... Three distinct cases are considered for studying the impact of hydrogen energy integration in rural area power network for ...

Know all about International Journal of Renewable Energy Research - Impact factor, Acceptance rate, Scite Analysis, H-index, SNIP Score, ISSN, Citescore, SCImago Journal Ranking (SJR), ...

International Journal of Energy Research (IJER) is dedicated to providing a multidisciplinary, unique platform for researchers, scientists, engineers, technology developers, planners, and policy makers to present their research results and findings in a compelling manner on novel energy systems and applications.IJER covers the entire spectrum of energy from production to ...

International Journal of Energy Research is dedicated to providing a multidisciplinary, unique platform for researchers, scientists, engineers, technology developers, planners, and policy ...

International Journal of Energy Research, 9794719; First Published: 22 December 2023; Retraction(s) for this article ... CO₂ Impact on Methane Pyrolysis as a Key Issue of Using Biogas as an Educat: ... Renewable Energy, and Environmental Quality in Japan: A New Evidence from QARDL Approach.

The journal, Renewable Energy, ... This journal offers authors the option to publish their research via subscription (without Article Publishing Charge) or open access. To publish open access, a publication fee (APC) needs to be met by the author or research funder. ... Impact factor; Renewable Energy. \$ 4160: 9.0:

Find A Journal Find the perfect journal for your research. Open Access Find out how to share your work with the world. Publish My Book. Author Services Easily navigate the publishing journey. ... Journal of Renewable Energy. Print ISSN: 2314-4386 Online ISSN: 2314-4394. Journals Journal. View on Wiley Online Library ...

Renewable Energy Focus seeks to deliver high-value insights across the energy value chain through integrative, comprehensive, and leading-edge research - covering high impact innovations in renewable energy systems integration; modelling and analysis; policy; and business innovations.

The International Journal of Renewable Energy Development (IJRED) is an open access and peer-reviewed journal published by the Center of Biomass and Renewable Energy (CBIOR) at Diponegoro University in Indonesia. The journal aims to promote renewable energy research and development, and to provide a link between scientists and practitioners.

International Journal of Renewable Energy Development IJRED. 2252-4940 (Print) Website ISSN Portal About Articles About. Publishing with this journal. The journal charges up to: 288 USD; as publication fees (article processing charges ...

Peer reviewed international journal that examines the relationship between energy systems and society. Energy Research & Social Science (ERSS) is a peer-reviewed international journal that publishes original research and review articles examining the relationship between energy systems and society. ERSS covers a range of topics revolving around the intersection of ...

International Journal of Renewable Energy Research is an academic journal published by Gazi University. The journal publishes majorly in the area(s): Photovoltaic system & Renewable ...

The International Journal of Energy and Environmental Engineering (IJEEE) is a multi-disciplinary, single-blind peer-reviewed hybrid journal, covering all areas of energy and environment related fields that apply to the science and engineering communities.. IJEEE aims to promote rapid communication and dialogue among researchers, scientists, and engineers working in the ...

Renewable Energy is an international, multi-disciplinary journal in renewable energy engineering and

research. The journal aims to be a leading peer-reviewed platform and an authoritative ...

Evaluation of different technologies such as renewable energy, heat pumps, energy storage, among others, in the pathway to achieve sustainable energy systems for residential buildings considering the current Spanish legal restrictions, establishing guidelines for the proper design of polygeneration systems for residential buildings at an ...

The International Journal of Energy Research is a peer-reviewed open-access scientific journal published by John Wiley & Sons. It covers fossil, nuclear, and renewable energy sources, and research into energy storage. It was established in 1977 and the editor-in ...

Transition to Renewable Energy Systems Edited by: Detlef Stolten, ... international BMC journal, that particularly welcomes articles from the field of novel energies. ... Citation Impact 2023 Journal Impact Factor: 4.6 5-year Journal Impact Factor: 4.7 Source Normalized Impact per Paper (SNIP): 1.350 SCImago Journal Rank (SJR): 1.066. Speed 2023

The International Journal of Energy Research is dedicated to providing a multidisciplinary platform for the discussion of issues arising in energy research without the constraints imposed by aiming at a restricted audience aims to reach all researchers, scientists, engineers, technology developers, planners and policy makers working in the areas of energy management, ...

Pursuing sustainable development in the face of climate change and environmental degradation has led to a significant shift toward renewable energy sources. A dependable, affordable, and stable renewable energy source must meet almost any future energy need. This review explores the environmental impacts of various forms of renewable energy, ...

Journal of Renewable Energy publishes papers relating to the science and technology of renewable energy generation, distribution, storage, and management. It also covers the environmental, societal, and economic impacts of renewable energy. ... Research Article. Open access. Impact of Reducing Waiting Time in Solar Water Heating Systems by ...

Official Journal of the International Association for Hydrogen Energy. The International Journal of Hydrogen Energy aims to provide a central vehicle for the exchange and dissemination of new ideas, technology developments and research results in the field of Hydrogen Energy between scientists and engineers throughout the world. The emphasis is placed on original research, ...

With the spread of environmental pollution, environmental recovery has turned into a critical goal of governments. Energy efficiency and the use of renewable energy are two essential solutions to control the emission of greenhouse gases. However, the research on these effective tools in reducing greenhouse gas emissions at macro and systemic levels in the ...

The International Journal of Renewable Energy Research (IJRER) seeks to promote and disseminate knowledge of the various topics and technologies of renewable (green) energy resources. The journal aims to present to the international community important results of work in the fields of renewable energy research, development, application, or design.

In 2012, renewable energy sources supplied 22% of the total world energy generation (U.S. Energy Information Administration, Citation 2012) which was not possible a decade ago. Reliable energy supply is essential in all economies for heating, lighting, industrial equipment, transport, etc. (International Energy Agency, Citation 2014). Renewable ...
