RV lithium batteries are great for camper solar set ups and can be charged quickly with lots of panels. Wrapping Up RV Lithium Batteries. Lithium RV batteries are game-changers for campers who want reliable 12 volt power sources that are maintenance free, durable, safe, longer lasting, and easier to carry.

A great example is the evolution of lithium batteries for RV solar applications. Lithium batteries have several apparent advantages (we'll get into those), but the price has always been the hurdle. Lithium batteries cost more -- a lot more -- than their traditional lead-acid counterparts.

The product may need to be returned to Interstate for further inspection. Ensure the product is shipped per applicable dangerous goods/hazardous material shipping regulations. Support. For questions about Interstate lithium batteries, please complete this support form or contact 888.772.3600. LITHIUM SUPPORT

Over the years, we have done lithium battery upgrades on three of our four RVs. While installing lithium batteries (and solar) in our Class A motorhome was a much bigger, more complex job that required assistance from others. Up grading from lead acid to lithium batteries on our Class C motorhome and Casita camper were both straightforward DIY drop-in replacements.

When those challenges are overcome, however, these new solutions often become game-changers for RV owners. A great example is the evolution of lithium batteries for RV solar applications. Lithium batteries have several apparent advantages (we'll get into those), but the price has always been the hurdle.
