Well, Ionic lithium marine batteries can do the same thing. Unlike many other types of batteries, lithium marine batteries can maintain their charge for years. They maintain their charge even if you put them in a storage shed and don't use or keep them charged.

An Ionic lithium battery is the answer. Lead acid batteries must have constant maintenance to prevent damage. An Ionic lithium battery has zero maintenance because there's nothing to do except recharge. You can never be too careful with your batteries. That's why we offer status monitoring for our Ionic lithium batteries.

The new generation of anglers, however, are coming up in the age of lithium marine batteries. Yet it's somewhat telling how little most anglers know about lithium power. They have seen the literally "inflammatory" stories of the early days of lithium power in boats and have shied away from lithium power.
