Trojan batteries help power golf carts, LSEVs, PTVs, people movers, utility vehicles, & more. Let us help you get the best possible performance from your vehicle. ... When it comes to replacing or upgrading your golf cart and LSEV batteries to lithium-ion, there are two battery sizes to choose from--GC2 (multiple, smaller units) or a single ...

Typically, lithium golf cart batteries can cost you from \$500 to \$2,000 or more, higher than lead-acid types. However, lithium golf cart batteries eliminate the frequency of maintenance and costs. In the long run, the total cost of ownership can be lower than that of lead-acid golf cart batteries.

1. Extended Lifespan. One of the most compelling reasons to opt for lithium golf cart batteries is their extended lifespan. Unlike lead-acid batteries, which typically last between 3 to 5 years, lithium batteries can deliver reliable performance for up to 10 years or more. This durability significantly reduces the frequency of battery replacements, resulting in long-term ...

Long Lifespan and Durability. One of the most compelling reasons to consider lithium batteries for your golf cart is their exceptional lifespan. A well-maintained lithium battery can last up to 10 years or more, depending on usage patterns and environmental conditions. This longevity is significantly greater than that of lead-acid batteries, which typically last only 3-5 ...
