

# Lithium ion battery smoke detector

Caveat: Consumer reports advise against using lithium batteries in smoke detectors unless used on a strict battery replacement schedule. They cite the battery's high voltage feature as the reason behind the warning. Accordingly, the lithium batteries will give you a shorter "low battery" warning as an alert for a replacement. This gives ...

If it can, remove your smoke detector from its placement and remove any batteries. The batteries should be disposed of separately if you're throwing your smoke alarm in the residential trash. Verify with your local municipality regarding disposal ordinances before disposing of an alarm. Some manufacturers will accept returned smoke detectors ...

**10-Year Lithium Battery Backup.** The First Alert 9120LBL Hardwired Interconnected Smoke Alarm features a built-in 10-year lithium battery backup that provides continuous power for the life of the detector. An end-of-life timer ...

Smoke detector with built-in 10-year 3-volt lithium power cell. Ionization sensor for efficient smoke detection. Complies with current 10-year legislation in states/cities where required. ...

10-Year lithium-ion battery lasts the life of the alarm. Slim shape is half as thick as a standard smoke alarm. Photoelectric sensor detects smoke while minimizing false alarms. Patented smoke entry system allows for a direct path to the photoelectric smoke. Features loud 85-decibel alarm and single test/silence button

The First Alert 10-Year Battery Ultimate Protection Smoke Alarm provides early warning of both flaming and smoldering fires. The built-in 10-year lithium-ion battery provides continuous power, with no need to worry about changing the battery over the lifetime of the smoke detector, and it can be easily installed without wires.

The First Alert SA305 Smoke Alarm with Lithium Battery features ionization smoke-sensing technology, ideal for fast-flaming fires. The 85-decibel alarm is designed to be loud and easily heard in the event of a fire emergency. Easy-to-Use Design. This battery-operated smoke detector utilizes a single button for simple operation.

The First Alert 0827B 10-year sealed tamper resistant ionization smoke alarm features a long-life 3V lithium battery that effectively provides a full 10 years of protection, without requiring any battery change. A single test/silence button lets you quickly mute nuisance alarms from cooking smoke or shower steam.

FDA241 - li-ion off-gas detector. Aspirating smoke detectors continuously draw air samples from the areas requiring protection and evaluate them for the presence of smoke. They ensure reliable fire detection in demanding application areas, where earliest possible fire detection is essential and business continuity is paramount. ...
