Sunelec is the Philippine Distribution Partner of LORENTZ, the market leader in solar powered water pumping solutions. LORENTZ technology uses the power of the sun to pump water, sustaining and enhancing the life of millions of people, their livestock and crops. This is encompassed in our company strapline - Sun. Water. Life.

If something does go wrong then all LORENTZ systems are designed to be field serviceable. All systems are modular allowing electronic boards, motors, pump ends and other components to be easily replaced. Not only are they serviceable but component spare parts are priced proportionately to the whole system price.

LORENTZ solar water pumps helps agricultural businesses and communities across South Africa take control of their water and save time and money with German engineered solar water pumping technology. We have expert local support and a huge network of regional dealers. Speak to the closest LORENTZ accredited dealer to you to learn more.

When you are installing a product 30 hours away from your workshop, in a desert, on a mountainside, in a jungle or "just" on the other side of a ranch then you need to know that it works out of the box. Every single LORENTZ pump system is tested for around 90 minutes before it is packed.

LORENTZ Solar Water Pumps deliver water to people, livestock and crops using the power of the sun. Simply "Sun. Water. Life." As a company dedicated to solar water pumping, all of our products

Lorentz the solar water pumping company

are designed to be highly reliable and very efficient. Pumping water uses a significant amount of power. The sun provides us with an almost infinite ...

Company; Wide range of pumps. ... LORENTZ solar water pumping systems are used for drinking water, irrigation and swimming pools. Whatever the PS2 pump is connected to the system will optimize water delivery depending on the power available and inputs from the various sensors.

ReAqua Pty. Ltd. is the exclusive distributor of LORENTZ products for Oceania, headquartered in South Australia and 100% Australian-owned.. LORENTZ" advanced, German-engineered solar pumps harness solar energy to provide a sustainable and economical pumping solution for people, livestock, crops, and industries around the world.

When more water is needed that solar power can provide, for example 24 hour pumping, PSk becomes a true hybrid system. LORENTZ PSk hybrid is not simply switching from one power source to another but will automatically blend grid power and generator power with the core solar power supply. PSk is an advanced solar water pumping system.

All LORENTZ pump systems have analogue and digital inputs and outputs for autonomous control, on board data logging, configuration by app and remote management via cloud services. © 2021 LORENTZ. All rights reserved.

Remote monitoring and high reliability means minimal maintenance. With a sole focus on high quality, and the market's widest range of solar pumping solutions. With LORENTZ CONNECTED, you can monitor and manage your water remotely. Active in 130 countries with expert local support within South Africa.

LORENTZ solar powered pumps use the power of the sun to pump water, sustaining and enhancing the life of millions of people, livestock and crops worldwide. LORENTZ has a proven track record of delivering drinking water to communities, plants, livestock and homes all around the world for over 20 years.

LORENTZ solar water pumping systems are used for drinking water, irrigation and industrial applications. Whatever the PSk2 system is connected to the system will optimize water delivery depending on the power available and inputs from ...

The Solar Water Pumping Company LORENTZ PSk Solar hybrid water pumping systems LORENTZ PSk is a solar water pumping system for medium to large applications (5-100kW). PSk provides the best of both worlds, powered by solar when possible and blending in alternative power sources when needed. With LORENTZ PSk you have a true hybrid pumping system.

LORENTZ is the global market leader in solar powered water pumping solutions. Founded in Germany during 1993 LORENTZ has pioneered, innovated and excelled in the engineering and manufacturing of solar
