I'm looking for battery backups that would work well for CPAPs, providing at least 16 hours of use. I know the important steps to extend battery life - use a DC adapter, turn off the humidifier and heated tube, but since the majority of battery backups are for general use, estimating how long they would power a CPAP under those conditions is something I don't know how to do.

The Maxoak AC10 is a portable power bank with a 99Wh battery capacity, a USB C PD port, two USB A ports, and an AC outlet. This is our review of it.
