

# Minecraft solar system map download

A map with detailed planets for each one in our own solar system plus a uncharted Planet X You spawn on earth and must build over to other planets to survive and thrive. And yes, I know there have been other solar system survival maps, but this one (as far as I know) of is the most recent one and incorporates some of my unique designs and ideas.

This is a model of the Solar System I made for a science project in my science class, though I would upload it for other people to enjoy :D Scale 1 Block - 100 km Some Planets are reduced in size because of 1. World Edit couldn't create them, and 2. The Minecraft world isn't big enough for most planets.

\* Make sure you are using Minecraft 1.8. GET YOUR SOLAR SYSTEM. Right-click the Items. sign to get your items for spawning your very own Solar System. SPAWN YOUR SOLAR SYSTEM. To spawn your Solar System, just use the spawn egg. That's easy! :D. When you use the spawn egg, an empty Solar System will appear.

The Sol system, contains eight planets and six moons. By far the most hospitable solar system discovered so far. However it is plagued by monsters: living corpses that were suspected to have been created by an ancient civilization though a process that would seem like necromancy but was in fact technology so advanced it was identical to magic, giant spiders ...
