Northern Power is Canada's best solar company, and the competition isn't even close. Here's a short list why: How does solar work? How do I pay for solar? What are the benefits of solar? How much does solar cost? Fastest Installation Timeline by far that I've ever seen for solar!

Northern Light's advanced-technology solar pool heaters allow you to heat your pool even in cloudy weather - or in the winter for indoor pools! Unlike traditional plastic solar pool heaters, we use a separate closed loop solar pool system that isolates the harmful pool water via a stainless steel or titanium heat exchanger.

Northern solar

Northern Solar has demonstrated good project management by completing the project on schedule and fulfilled all the requirements. The performance of the solar generation was as per projected, thus helping the company to save on the high electrical tariff cost. Kudos for the job well done and we are pleased with this partnership.

Northern solar

without the hassle of installing, permitting, maintaining and insuring their own solar array. Members may subscribe to as many panels as they wish, up to the equivalent of their annual average usage.

Appreciate the excellent attention and service Northern Solar provide to their own customers. We're actually saving about RM350++ a month on our TNB bill from what it used to be. And it was shocking to see one month our bill was only RM 3. Even in previous month, it got up to about RM 25 as we have guest coming.
