This might involve sanding down any remaining adhesive or material left from the old soles. Applying the New Soles. With your boots prepared, you're ready to apply the new soles. Apply adhesive to the boots and new soles: The adhesive is a crucial component of your boot resole kit. Apply it evenly on the bottom of the boot and the new sole.

Ah, the old leather sole conundrum. "Wow, those are beautiful shoes/boots. Look at the profile! What class. Oh, leather soles, never mind". That used to be my thinking every time I see a lovely pair of boots or shoes, only to discover that a leather sole is lurking underneath, ready to wear out -- or worse, cause me to fall on my butt. It's a common dilemma: form over ...
