I've been researching various lithium (LiPo4) battery solutions for the Oset 16. A cheap alternative I found has been this Eco-Worthy brand which are 12v 10Ah. ... Oset 16 LiPo Battery Oset 16 LiPo Battery. By Teddy, June 22, 2021 in OSET Electric Trials Bikes. Share More sharing options... Followers 0. Reply to this topic; Start new topic;

Therefore, the 24V 12.5" Oset takes 2 lithium batteries, the 36V 16" Oset takes 3 Lithium batteries and 48V 20" Oset takes 4 Lithium batteries. Dimensions. Length(mm): 151. Wight(mm):65. Height(mm): 112. Height over terminals(mm): 115.5. Mass(kg):1.1. High quality upgrade E& J lithium-polymer battery packs to suit all 24V/36V/48V OSET e ...

Designed to replace the standard batteries in your MX or 24r Oset (4 AGM battery bike) Nominally 48v this battery is 54v when charged, giving a nice boost in performance. Last 3-4 longer than standard. (lead acid) Upto 50% longer than bikes equipped with the standard Oset batteries. The only aftermarket battery that is

Hi there Having issues with using this battery pack in a 36v oset 16. Details below 36V 10ah Li-ion Battery 10S 4P for 350W~750W Built-in 15A BMS 36 volt 10ah lithium battery. ... Built-in 15A BMS 36 volt 10ah lithium battery. With 36 / 42v 2A charger Battery parameters: Battery type: 36V 10ah ... Discharge temperature range :-20-60? Battery ...

Oset 20 electric trials bike with a lithium battery upgrade (\$500) which is lighter and lasts longer. Also, put an after market seat on it which is just strapped on so very easy to remove if doing trials moves. Great bike for getting the balance down for eventually moving on to an enduro bike. ... Oset 20 electric trials bike with a lithium ...

Oset 20 lithium battery

Like most, the limited riding time provided by the standard battery pack become boring quite quickly so i have found a company based in London that has built me two lithium ion battery packs with built in BMS. After a small amount of prototyping these packs are astonishing! Weighing under 7 kg, giving over 20ah and 54 volts at full charge.

The OSET 20 motor is an all new OSET design using the very best internal components and paying special ... powerful and incredibly light lithium power packs in the future. We expect these to save about ... 100 Amp OSET, multi-adjustable. Batteries (standard) - 48v 10ah AGM SLA. Brakes - Hydraulic 160mm. Reach adjustable.

Oset TXP-20 2024. Oset TXP-24 2024. Beta Trials. Beta Trials Information. Beta Mini Trial 70, Auto, Beta Evo 80 Junior, Beta Evo 80 Senior, Beta Evo 125, Beta Evo 200, ... Latest technology lithium battery in a sealed unit provides up to 4 hours runtime in normal use and rapid recharge times from only 90 minutes to 90%.

Hi. I have installed a high tech custom lithium ion battery pack, 20 amp hour (it's. for a 2014 20 Oset It runs all day and has impressive power. However when my boy is riding slowly it cuts out and there is massive engine braking. He then twists the throttle and a lag then boom it's off. It's ...

Select your OSET model from the list below Filter by document type -- All Documents -- Owners Manuals Regulatory & Warranty Information Spares Diagrams Video Guides Wiring Diagrams Filter by document language -- All Languages -- Austrian Czech Danish English French German Italian Japanese Portuguese Russian Spanish

One of the best upgrades you can make to your Oset is to replaces the sealed lead-acid batteries with LiPos. A LiPo (lithium-ion polymer battery) is an evolution of lithium-ion batteries where the electrolyte is basically held in plastic rather than a solvent. LiPos allow you to shave a lot of weight and to reduce charge time dramatically.

I have just bought an Oset 20.0 Eco for my son. I think it is quite strange that Oset doesnt offer any Lithium batteries so now I am looking for a new battery. LiPo seems popular here on the forum but I had a LiFePo4 36v 20Ah on the previous 16.0 that I was very pleased with. Looking at the very skillfull boys in videos like this:
