Are considering installing a Solar PV System at your Home and would like to know just how much it might cost? Solar PV prices range from R70000 for a small home installation to R350 000 for an installation for a large home. Backup power systems prices without the solar panels that allow for solar panels to be added at a later stage start from R40000 installed.

All solar panel kit components can usually be purchased individually and assembled into a solar panel system. The idea behind a solar panel kit, though, is that the planning has been done in advance.

Experience convenience and flexibility with a complete solar panel kit, delivered to your doorstep. Take control of your energy future today! Filters Price \$0. \$180,989 \$ From \$ To ...
