Generac's 7.5 kW PowerPact(TM) home standby generator is the affordable, automatic alternative to portable backup power. Features incorporate many of the qualities and reliability of the best ...

The Bluetti EB70 power station is our new favourite camping power pack. It slots in at a great "intermediate" price point whereby it offers a decent amount of storage (700 watt hours) whilst also delivering enough power (1000W) to drive toasters, cool boxes, kettles and induction hobs - i.e. just the sort of gear you're likely to want to spark up at the campsite.

Enginuity Power Systems' Personal Power Pack (P3) is a durable and lightweight portable generator designed to be easily carried by a single individual. This hybrid diesel / electric generator weighs between 25 to 30 pounds...with the completion of the next P3 prototype, it will produce between 1.5 to 4 kilowatts of power.

Our Power Packs provide critical generator power to refrigerated containers at shipping ports worldwide. RAVA Group's Power Packs are engineered and designed to be reliable and versatile alternatives to conventional ship supplied power sources. Our Power Packs are equipped to supply power for containers anywhere on a terminal, board ship or barge.

Renting Power Packs for your reefer operation not only makes financial sense, but when compared to other power generation solutions, Power Packs still remain the superior choice. And because so much is at stake with every reefer container under your care, the clear decision should be a Power Pack or PortaPack and not just any standby generator.
