UBL solar batteries are deep cycle batteries made of durable black polypropylene and come in the following sizes: EB50 (50AH), EB70 (70AH), and EB100 (100AH). They require distilled water with a maximum conductivity of 30Ms/cm. We advise our customers to use distilled water instead of tap water.

Despite solar capacity of just 7% in the country, Uganda's eight hours of sunshine per day represents huge potential for solar power's development. Attracting investment is key. As part of efforts to scale up solar PV investment, the government of Uganda introduced model contracts in their investment guides.
