

## Renew power

Our preferred solution achieves 100% green power - Savings on account of lower power costs - Greening is important for customers; studies suggest that 75% of customers consider environmental impact when making a purchase decision<sup>1</sup>

VPPA renewable energy solution makes it a good fit for voluntary or regulatory requirements for switching to RE while also ensuring cost savings. Currently, two solutions are prevalent in this category: International Renewable Energy Certificates (I-RECs) and Virtual Power Purchase Agreement (PPA), with the regulations surrounding VPPAs still ...

Unlock 100% potential of Green Energy. Virtual power purchase agreements to offset brown power allowing procurement of 100% unbundled green attributes with a low maintenance cost, no physical setup, and immediate installation for a hassle-free transition to RE.

Avail reliable green power, round-the-clock. Innovative open-access solution integrating solar wind hybrid system with upcoming sources of hydro, green hydrogen & exchange to ensure flexible & available power supply.

Our preferred solution achieves significant savings over baseline and also offsets RPO. - Energy cost savings of up to 40% on per unit basis vis-à-vis to baseline. - Enabled adhering to RPO mandate of 20% green sourcing. - Provided a competitive edge through lower cost of production.

Our preferred solution achieves 100% green power - Greening holds strategic importance for almost all data center clients, hence it adds to the overall value proposition - Savings of up to ~25% on account of lower power costs

PROGRAMME AT ReNew. LEADERS TALK. Sumant Sinha. FOUNDER, CHAIRMAN AND CEO. In the renewable energy space, digital and analytics is enabling dramatic changes across operations and is playing a critical role in growing and enhancing performance in the sector.

ReD: ReNew Power's digital transformation programme was formally launched on 18th September at the ReNew.Hub, coinciding with the Innovation Day celebrations. The launch ceremony was held in the presence of 150 ReNewers including those from our sites and ROs.
