

1. Skyelectric provides solar solution for residential and commercial. 2. Our mission is to make clean energy universally available by building a distributed and intelligent solar and energy storage grid, managed via the internet, across the world. 3.

Good app, especially the live dashboard. My suggestion would be to make a version for android tvs. This will not only allow the users to have the dashboard displayed all the time at main areas of the house but also a great marketing for all the visitors and guests of the house since it sparks curiosity and interest.
