

Snap solar system

There are eight planets in your Snapchat Solar System. It ranks all planets based on how close you are to your friends. The app assigns Venus to your second-best friend and goes to Neptune,...

From sending snaps and messages, exploring Bitmoji Stories, viewing Spotlight snaps, to navigating the Snap Map, each planet offers a unique interactive experience. The Snapchat Planets were designed to offer an immersive interface that goes beyond traditional social media use.

When visualizing the Snapchat Solar System, imagine yourself as the sun. The person you interact with most on Snapchat is represented by the planet Mercury, which is closest to the sun in...

The Friend Solar System in Snapchat works by assigning you a planet that represents your position in another user's friend list. The planets from closest to farthest are Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and Neptune.

"Best Friends" means they're among the eight friends you Snap and Chat with the most. Tapping on the badge will show you which planet you are in their Solar System, with each planet representing a different position in their Best Friends list. Solar System is off

The Solar System is an optional, private feature that is only available with a Snapchat+ subscription and is used by less than 0.25% of our community each day, on average. It illustrates how frequently one of your friends communicates with you by showing your friend as the Sun and your Bitmoji avatar on a planet in our solar system.

Snapchat Planets is a ranking system that assigns the planetary order to your friends corresponding to our Solar System. You can use this feature only if you have a Snapchat Plus subscription. In this guide, we will explain the meaning of Snapchat planets and their order in the solar system with you in its center.

To help you understand the latter, Snapchat's Plus subscription rolled out a new feature called Snapchat Friend Solar System, which assigns a planet to close friends of yours. In this article, we will help you understand what are Snapchat Planets, their ...
