While cleaning solar panels, avoid using hard water, as it will leave mineral deposits on the glass surface of your panels. When the said deposits dry, the peak efficiency of solar panels may drop by as much as 30%. Generally, a small pump would suffice. You do not need strong water pressure since the brush's scrubbing affects the main cleaning.

"Solar panel cleaning costs between \$4 - \$15 per panel. The total solar panel cleaning costs will be affected by several factors, the biggest of which would be if your solar panels are on the ground floor or on upper floors," explains Checktrade. "The higher the panels, the more expensive they will be to clean.
