I have built a large deer stand to take family and friends hunting. I would like to have a source of power in the stand to charge electrical devices, run a string of 12 volt LED lights and maybe an auto DVD player (for the kids). I am thinking of a solar battery charger and one or two deep cell marine batteries.

Jim Colpitts hunts out of this stand in Windsor, N.Y. in Broome County. He wrote: "Located in a 30-acre alfalfa field, the stand is built on top of a 10,000 gallon fuel tank.

The 6V Edrenaline® Solar Panel provides worry-free power to your deer feeder all season long. The heavy-duty, high-efficiency solar battery charger keeps batteries charged with advanced amorphous silicon solar technology. Easily clips in ...

The 15-watt solar panel keeps your power bank charged and ready for your next hunt. The long lasting 40,000 mAh lithium power bank can charge your phone up to 8X, and with (5) output ports you can charge multiple devices simultaneously. The power bank comes with a bright LED light for those situations where you need extra light.

So I have this crazy idea of building a 2 story deer stand the top will be the stand and the bottom will be for sleeping, cooking or just hanging out there will be no windows on the first floor so lights won't scare the deer. ... I run 6 solar panels and they alone provide a constant 70+ volts to my reducer/bank charger with full sun. Welcoming ...

The 15-watt solar panel keeps your power bank charged and ready for your next hunt. The long lasting 40,000 mAh lithium power bank can charge your phone up to 8X, and with (5) output ...
