One day, I decided to take on a new drawing project centered around the solar system. My fascination with the stars, planets, and the vast expanse of space was my muse. I started with simple circles for planets and added rings, spots, and varying colors to differentiate them. It became a fun and educational experience as I learned more about each planet's unique ...

Every planet in the solar system orbits around the sun. To show this in your drawing, draw a curved path coming off of the top and bottom of each planet. Extend the paths toward the Sun and off the edge of the page to show that each planet travels around the sun. Make sure none of the orbital paths you draw intersect with each other.
