"In line with our Global multi-energy strategy and commitment to develop 1GW of renewable energy in Uganda by 2030, TotalEnergies EP Uganda will undertake feasibility studies and develop these Solar PV projects in accordance with today's signed project agreement and the applicable laws," he said.

Ital Trade is the premier solar company provider in Uganda. When it comes to high quality solar installations, Ital Trade is the way to go. Established in 1996 as the first solar power initiative in Uganda, Ital Trade has proved its business validity with quality maintenance, and overall excellence throughout the years.

Solar energy is used to generate electricity, heat water, and provide lighting in Uganda. It can also be used to power homes, hospitals, schools, and businesses. Solar energy is an ideal choice for rural areas in Uganda where access to electricity is limited.

In Uganda, there is a great potential for solar energy development, whereby about 200,000 km<sup>2</sup> out of 241,037 km<sup>2</sup> of Uganda's land area has solar radiation exceeding 2,000 kWh/m<sup>2</sup> /year (i.e. 5. ...

One of the most significant business opportunities in Uganda's solar energy sector is the installation of solar panels for residential and commercial customers. Solar energy companies can install small-scale solar power systems for homes, schools, hospitals, and other small businesses that are off-grid or experiencing frequent power outages.

Solar power is arguably the cleanest, most reliable form of renewable energy available[3]. In Uganda the sun's rays are almost directly overhead due to its location along the equator and has average temperature of 21 °C and 23 °C (70 and 73 °F)[4][5][6]. Uganda is endowed with 5-6 kWh M<sup>2</sup> radiation 7 per day on flat surfaces [7]. The ...
