Habiba is a clean energy entrepreneur. She founded Sosai Renewable Energies Company in 2010, after attending the Partnership for Clean Indoor Air in Uganda as a speaker. One of the sessions she attended was about the negative health impact of kerosene lanterns. This was a new angle that I hadn't considered.

Habiba Ali is a pioneer in the renewable energies field. She is the founder, managing director and CEO of Sosai Renewable Energies, an innovative company that brings reliable and affordable renewable energy products to those in Nigeria who need it most. Photo by AWT. Habiba Ali is a pioneer in the renewable energies field.
